The following is an index of The Seybold Report on Internet Publishing Volume 3; all of the content is available online. To get the story you want try the following:

- Browse the more human-readable [back issue list](#) for this volume.
- Use our [search engine](#) with options that let you sort by relevance and publication date.
- Look over the main [Internet Publishing](#) page to find out what IP is all about and what in the [current issue](#).

Note: Some articles on our site require some type of subscription access. However, we do offer low-cost options such as a [Monthly Pass](#).

Seybold Report on Internet Publishing  
Index to Volume 3

September 1998 - August 1999

Notes About This Index

This is a complete index of Volume 3 of The Seybold Report on Internet Publishing, including all 12 issues of the journal.

The index is alphabetized letter by letter and includes proper names as well as subjects or topics. Numbers are alphabetized as if they were spelled out, except in the case of vendors that have a whole series of numbered products, where the numbers are sorted numerically. The company affiliations of individuals and products follow their names. Entry citations include issue and page number(s). (The volume number is 3 throughout and is therefore not cited.) Multiple citations within the same issue are separated by commas; similar references occurring in different issues are separated by semicolons.

Example:

ePublishing Clearing Service (Xerox), 4:21; 8:11, 13

The citations refer to page 21 in issue number 4 and pages 11 and 13 in issue number 8.

Abbreviations:

Illustrations are indicated by "(ill.)"

Seybold San Francisco '99 is abbreviated as SSF '99.

Seybold Seminars '00 is abbreviated as SS '00.

A

ABC-CLIO, partnership with netLibrary, 8:34  
accessibility guidelines. See World Wide Web Consortium (W3C)

Accrue

Insight, for Web tracking, hosting service offered, 9:2

Insight 3.0

selecting demographics, 9:26 (ill.)

tamper-resistant log files, 9:26

Acrobat 4. See Adobe Systems

ActiveShare (Adobe Systems), 11:23-24 (ill.)

AdGate (Infosis), 11:25 (ill.)

Adhesive Software

company background, 6:17

Motorola, first corporate client, 6:19

NewsFlash, for news publishing on Web

framework, templates, performance, 6:18

sold by Quark as WebOS, 6:17-19 (ill.)

Adobe Systems

acquires GoLive

- CyberStudio, Windows version coming, 6:16; 7:22
- integration of Web Publishing System, 6:16
- Acrobat 4, 7:3-11 (article)
  - "capture Web" facility, 7:9-10
  - creating a form, 7:5, 7 (ill.)
  - digital signatures add authenticity, 7:7-8
  - Distiller: improvements in making PDF, 7:10-11
  - for e-commerce, corporate setting, 7:3, 11
  - expanded annotations, markup, 7:8-9 (ill.)
  - Hot Pick at Seybold Seminars, 7:24
  - link improvements, 7:4 (ill.)
  - models and pricing, 7:10 (box)
  - a second take, from Conrad Taylor, 8:2
- ActiveShare, photo albums over the Web, 11:23-24 (ill.)
- addresses, 7:11
- Adobe GoLive 4, for commercial Web developers
  - "Adobification" release, 10:20
  - ahead of Quark, 8:12
  - Mac and Windows, new features, 10:20
- consumer presence expanded, 11:23-24
- CyberStudio
  - renamed Adobe GoLive, 7:22. See also above
  - version 4.0, supports PDF, XML, ASP, 7:22
- Illustrator 8
  - actions, links, navigator palettes, 1:14-15
  - disappointments for Web designers, 1:15
  - "gradient mesh" feature, 1:14 (ill.)
  - vs. Macromedia FreeHand, 1:15
- ImageStyler, Web graphics tool
  - for business professional, 2:21 (ill.)
  - the competition, 2:23
  - innovations, 2:22
  - missing elements, 2:23
- InDesign (formerly K2), page layout
  - demo at SS '99, 8:4
  - DTI NewsSpeed built around, 11:11-12
  - extensible modules, 7:6
  - hot features for print, 7:6
  - Hot Pick at Seybold Seminars, 7:24
  - PDF output, 7:6-7
  - supported by HexMac, 8:13
  - Web output, 7:6
  - where it fits, 7:7
- K2, vs. Quark XPress, 2:30. See also InDesign above
- PDF
  - key changes in PDF 1.3, 7:5 (sidebar)
  - at SS '99, 8:14-16
- PDF spider, for conversion, 3:20 (ill.)
- PGML viewer, Internet Explorer plug-in, 3:20-21 (ill.)
- Photoshop 5.5
  - enhancements, 11:23
  - ImageReady 2.0 bundled with, 11:23
- Professional Publishing Solutions group formed, 6:16
- Quark's failed bid for, 2:32, 30-31
- showdown with Quark, at SS '99, 8:3-7
  - heavy support from developers, 8:6
- WebReady printing, in NEC SuperScript 4400 Series, 1:16
- ADSL
  - Dell, Compaq PCs with ADSL modems, 5:28
  - G.Lite standard endorsed for, 5:28
- Advanced Information Systems. See AIS Software
- Advanced Publishing Technology (APT)
  - addresses, 11:14
  - offers ACT Editorial system, 11:14-15
- advertising, online
  - and marketing, 10:6-8
  - revenue from GCN InfoTaxi, 8:30
  - revenues from MedGenMed, 10:29
- Aeneid, Aggregation Platform, licensed to Information Access, 3:26
- AIS Software
  - bought by Inso, 6:20
  - SGML/XML data-conversion tools, 6:20
- Akamai Technologies

- addresses, 12:11
- company background, 12:9
- customers, 12:10-11
- deal with Apple, 12:10
- FreeFlow network, intelligent routing algorithms, 12:9-10
- vs. Sandpiper, 12:11
- Allaire, Spectra, e-commerce features, 12:21-22
- AltaVista
  - bought by CMGI, 11:26
  - completes acquisition of Zip2, 9:25
  - Homebase, for leverage in portal market, 11:26
- Amazon.com
  - acquires Junglee, 1:22-23
    - using XML for buyer's guides, 1:22
    - "virtual database" tools, 1:22-23
  - acquires PlanetAll, 1:22
- American Association for Advancement of Science
  - "pay by the article" option, 5:23
  - "pay by the day" access to archive, 5:23
- American Computer Innovators (ACI)
  - addresses, 11:14
  - OpenPages Composer editorial system
    - Dynamic Web Publishing System, for HTML, 9:23-24
    - e-commerce module: to buy newspaper articles, 9:23
    - WebBuilder module, strong content management, 11:13-14 (ill.)
- A.MMOS (Picdar Technology), 11:6 (sidebar)
- Apache: The Definitive Guide, 2nd edition,
  - Ben Laurie and Peter Laurie, book review, 10:35
- Apache Server Administrator's Handbook, Mohammed J. Kabir,
  - book review, 10:35
- Apache Web server, Seybold Editors' Award winner, 7:2
- AppSolute Server (Microtest), 10:33
- ArborText
  - EPIC, XML-based corporate publishing, 4:14-15 (ill.)
  - tools for free-form editing, 8:40
- Arriba Soft
  - addresses, 2:18
  - Arriba Express asset manager, 2:18-19 (ill.)
  - company background, 2:19
- Artesia
  - to broaden market for its software, 11:22
  - from Thomson spin-off of TEAMS subsidiary, 11:22
- Aspen Publishers
  - "Areeda on AntiTrust," 3:10 (ill.)
  - Folio SiteDirector for publishing on Web, 3:10
- asset management
  - with A.MMOS from Picdar, 11:6 (sidebar)
  - from Arriba Soft, 2:18-19 (ill.)
  - image asset management
    - with Canto Cumulus, 9:13-16 (article)
    - at SSF '98, 2:16-20
  - Mabango from Digital Graffiti, 2:19
  - media asset management
    - guide to implementation of, 12:12-17.
    - See also media asset management
    - at SSF '98, 2:13-15
    - Quark Digital Media System, 2:13
    - TEAMS. See ThomsonConsulting
- Association of American Publishers
  - Enabling Technologies Committee, 12:22
  - Metadata Information Clearinghouse (Interactive), or MICI, 12:22
- Astoria (Chrystal Software), 2:12
- Atex Media Solutions
  - addresses, 11:14
  - Omnex editorial system, 11:8-10
    - FutureTense's IPS Xcelerate for Web publishing, 11:9
    - handling multiple versions, 11:9-10
- Atomik-XT. See RVC
- Audible
  - addresses, 8:39
  - Microsoft invests in, 8:39
  - protects audio content, 8:39

AudienceOne (formerly DigiDox). See also DigiDox  
addresses, 8:15
